---

**Full-Stack Web Developer with a goal to fulfil the wishes of clients by building websites with a great technical stack and visual design. A problem solver who likes to check the structure and infrastructure of websites and developer tools in order to continually learn and constantly improve. Strong passion for long-lasting first-impressions through combining timeless designs and new technologies.**

## FINISHED PROJECTS

---

- Pokédex - A small web application implemented using HTML, CSS, and JavaScript that loads data from an external API and enables the viewing of data points in detail.  
<https://andrasbanki.github.io/Pokedex/>
- myFlix Movie App built with React. This web application provides information about different movies, directors and genres. Users are able to sign up, update their personal information, and manage the list of their favourite movies.  
<https://andrasbanki-myflixapp.netlify.app/>
- myFlix Movie App using Angular. Built the client-side for the myFlix application based on its existing server-side code (myFlix API and database).  
<https://andrasbanki.github.io/myFlix-Angular-client/>
- A basic to-do list app built with Redux, where the users can add and remove items from their list, mark to-dos as resolved or change their order.  
<https://andrasbanki.github.io/to-do-list-app/>
- A chat app for mobile devices using React Native. The app provides users a chat interface and options to share images and their location.
- A serverless, progressive web application (PWA) with React built using test-driven development (TDD) approach. The application fetches upcoming events from the Google Calendar API.

## CURRENT PROJECTS

---

- I am creating a photo gallery about the places I have been to with Firegram. This tool teaches you how to build an Instagram-like gallery app using React.js backend and a Firebase database.
- Building a portfolio website for an independent architect and designer. My aim is to have a clean design that puts the focus on their skills and projects. I am building the site using HTML and CSS.

## SKILLS

HTML	Angular.js	Firebase
CSS	Node.js	jQuery
JavaScript	MongoDB	JSON
React	AWS	PostgreSQL
React Native	Heroku	Github

## LANGUAGES

English	professional
German	professional
Hungarian	native

## EDUCATION

### CareerFoundry

#### Full-Stack Web Developer Certification

**March 2021 - September 2021**

This program provides a strong basis on how to build a modern website, covering basic to advanced skills, with a focus on accessibility and security.

### Olad Technical School of the Vas County

#### Training Centre Szombathely

**Hungary 2006 - 2008**

Maturity exam (equals the German 'Abitur') with specialization for informatics.

## PREVIOUS WORK EXPERIENCES

### Demi Chef de Rang // Restaurant Tim Raue \*\*

Berlin, DE, 2018 - 2021

Working in a fast-paced environment and meeting high expectations in expertise, professionalism and team spirit to provide guests a Michelin star level experience.

### Chef de Rang // Renaissance Wien Hotel

Vienna, AT, 2017

Employees at this worldwide hotel chain are expected to meet a detailed set of standards to ensure that guests get the same experience at any of the hotels. I lived up to this requirement with due diligence and built a connection with regular visitors from behind the bar.

### Chef de Rang // Michelberger Restaurant

Berlin, DE, 2015 - 2016

Presenting an at-home feeling to guests and colleagues from different cultures was important here. By finding the appropriate tone with everyone and treating them equally, I was able to fit into this concept.

2008-2015

I worked 10+ years in the hospitality industry in Hungary, in the Netherlands, Austria, and Germany.
